Design is something to take personally, particularly when it comes to your kitchen. Does it reflect your individual style while meeting essential day-to-day needs? Does it offer ample preparation and cooking areas, intuitive organization and stunning display arrangements? Traditional to modern. Practical to upscale. Decorá cabinetry is the answer you've been looking for.

You are one of those people who makes everything look simple. With Decorá cabinetry, your home can, too. Take the white opaque kitchen and entry ensemble below, for example. Back door to center island, both arrangements sport stainless steel hardware and clean lines for a uniform, clutter-free aesthetic. Create a built-in furniture feel with divided light glass inserts and stacked crown moulding.

modesto

cherry : sepia

East meets west in this transitional splicing of Asian simplicity and country patina. The visual anchor for this floor-to-ceiling arrangement of wide drawers and tall doors: a stainless steel undermount sink framed by a solid cherry open-shelf display. The sturdy sinkbase featuring flat panel, full overlay Modesto door construction also offers the welcome convenience of vertical storage.

Lexington

maple : angora & cobblestone

Decorá makes it easy to stay on trend and on task, from start to beautiful finishes. Here Cobblestone establishes neutral ground for the natural warmth of Angora. Punctuate your style while preparing your kitchen for heavy-duty use with culinary epicenters showcasing sophisticated moulding and embellishments, plus hidden conveniences like a stainless warming drawer for entertainment ease.

Communal gatherings. Culinary collaborations. Make them even more inviting with a wide-open, fully-operational kitchen design featuring hardwood Decorá cabinetry. Blend three finishes to make maple and cherry Shaker door construction truly timeless. To encourage traffic flow and light movement, introduce modern angles to the mix with peninsula wall cabinets and a multilevel storage island.

girard

maple : lunar twilight & cobblestone

Top designers know the difference between ornate and overkill, expansive and expensive, tried-and-true and trying-too-hard. No wonder Decorá cabinetry is one of their top picks. Here creamy tones surround a contrasting Cobblestone island featuring a furniture-grade seating extension, providing a front row seat to Specialty Glass doors, an open dishware organizer and extensive, expressive crown moulding.

harmony

cherry : wheatfield

Harmony occurs when form follows function. Here we demonstrate how a simple Shaker door style can give your kitchen a personality and level of performance all its own. Oversized hardware and semi-translucent art glass draw the eye and guide the hand. Open shelving and ceiling-height wall cabinets ensure you don't waste an inch of opportunity. Decorá cabinetry makes a space music to the eye.

artisan

cherry : arlington espresso

Smart design doesn't elevate style at the expense of storage. We put this theory into practice, creating a contemporary kitchen environment with a host of food preparation and organization must-haves—large-capacity sliding drawers, heavy-duty shelving behind extra-wide doors, open organization slots for easy-access items, plus a dramatic “cubic” wall cabinet arrangement featuring art glass inserts.

Clean Shaker door lines. Rich maple finish. Contrasting center island that beckons casual sitters and overt foodies alike. Deep, wide doors beside and below appliances. Exposed shelving above a tall buffet counter for good measure. In this Decorá transitional case study, rustic warmth takes over where contemporary hip leaves off. Or perhaps it's the other way around, depending on your point of view.

arignon

cherry : rousseau luminaire

How many finishes does it take to infuse antique charm into a modern kitchen design? In this case, only one. Rousseau Luminaire is a specialty two-tone option that inspires the layering of premium design elements including matching Cherry Avignon doors, drawers and end-of-runs, plus premium art glass and crown moulding. And you can't miss the high-rise pantry and wine cubes bookending the buffet area.

rivington

non-beaded inset : cherry : coriander espresso

Good things happen when you combine wide-open spaces with well-crafted cabinets. Here loads of storage space reside above and below the counter, with plenty of elbow room everywhere between. Visually grounded by quality cherry and alder Shaker-style doors with warm Coriander Espresso and Bombay finishes, we think you'll agree—this is an inspired way to increase productivity and create serenity.

artisan
oak : teaberry

A simple solution for those long on galley space but short on great ideas: Rather than knock walls down, take the ones you already have and extend storage straight up to the ceiling, finishing off the final few inches with precision-angled crown moulding. Then fit more single-slab faced drawers and doors under long stretches of light countertop. Who knew your kitchen could look this great? Decorá did.

plaza
maple : chantille

The age-old concept of a separate dining room was long overdue for a makeover. But you don't have to give up classic styling or room for friends and family to gain convenient access to kitchen essentials. The warmly lit gallery display hutch and a multifunctional island with solid maple spindle leg embellishments are definitive proof that ease and elegance can, at last, share the same space.

other rooms

The kitchen is a natural starting point for stirring up ideas. Decorá now invites you to explore the many design options that reside in your home's other comfort zones—those living and working spaces that people naturally gravitate towards. Our large array of door styles plus color and finish combinations mean you'll be ready to express who you are, no matter where you are in your home.

color matching color palette

At Decorá, we foster a culture of creativity and acceptance. So it is only natural that we welcome the challenge of matching whatever piece of color inspiration you send our way with open imaginations—a magazine tear sheet, a photo of an old quilt or antique chair, an especially meaningful greeting card. It's simple: If it catches your eye, it is fair game for inspiring a custom opaque finish color. Add drama by applying a Coffee, Espresso, or Twilight glaze to your custom color.
