Not recommended for heavy-duty horizontal applications such as countertops. <i>Available only for selected Woodgrain Collection items.</i>
-45	Punched	Small embossed square shapes that produce an architectural effect. Suggested for vertical use due to deep texture. <i>Available only on selected Authentix Collection items.</i>
-46	Etchings	A softly polished and etched surface dappled with highlights from tiny fractures and fissures reminiscent to those found in real granite and stone. Recommended for horizontal applications such as residential countertops and vertical interior applications. <i>Available only on specific stone and granite patterns in the Etchings Finish Collection.</i>
-47	Powdered	An understated textural, non-directional finish that imparts a subtle glossy finish, multifunctional for horizontal and vertical surfaces. <i>Available only on selected Authentix Collection items.</i>
-58	Matte*	A finish that imparts a warm, pleasing effect that enhances the beauty of color and produces a greater clarity and depth.
-77	Honed	A low sheen satin finish with subtle surface clefts and crevices that mimic softly brushed stone. A soft and natural finish that is appropriate for travertines, slates, and river washed granites. Recommended for horizontal applications such as residential countertops and vertical interior applications. <i>Available only on specific patterns in the Honed Finish Collection.</i>
-90	Polished*	A high gloss finish ideal for applications that require maximum smoothness and reflectance. Recommended for vertical or light duty horizontal interior applications. Recommended for vertical or light-duty horizontal use only. Not recommended for heavy-duty horizontal applications such as countertops.
CT	Chemtop2	Finish to resist chemicals, stains, impact and heat. <i>Available only for selected Chemtop2™ Collection items.</i>
MC	MicroDot	A low-sheen finish with subtle, concave circles arranged in a tight grid formation. Suitable for vertical or horizontal usage.
NT	Naturelle	Finish that marries a low sheen with subtle straight grain ticking to create a realistic natural wood look and finish. Recommended for vertical or light-duty horizontal use only. Not recommended for heavy-duty horizontal applications such as countertops.
RW	Riverwash	Enhances the look and dry-touch feel of naturalized man-made materials aged to a patina by flowing and running water. Features registered, low lustre, dual gloss texturing to mimic the aggregate stones in concrete and rusted elements in metals. Recommended for horizontal applications such as residential countertops and vertical interior applications. <i>Available only on specific patterns in the Riverwash Finish Collection.</i>
