20-20 Rendered Cabinetry using Mon Reale™ & Authentic Hand-Carved® Woodcarvings

Installed Cabinetry

The Expression of the Creative Spirit.

As you begin designing your next Signature Kitchen, you will be pleased to know that White River and 20-20 Technologies have developed a software design solution to ease the specification process. Through this collaboration, you will be able to create 3D color renderings with remarkable detail and clarity that save you and your client money.

White River stocks over 1,500 hardwood products including Hand-Carved Range Hoods, Mouldings, Corbels, Onlays and Cabinet Parts, all in American Maple and Cherry. Each product featured in our 20-20 catalogue has been meticulously scanned to provide an unparalleled level of detail. Also, when your project is completed, you may use the 20-20 parts list to ensure correct product numbers and information.

We hope this catalogue will inspire your imagination with new ideas - how to use our handcarved Range Hoods and other products to create your next kitchen, or to accent a room with architectural details. Each page has multiple renderings of traditional kitchens from various angles. Also, we have included the product numbers for reference so you can quickly find them in our catalogue index, online, and when ordering.

If you use AutoCAD (versions 2000 or later), or any other CAD/CAM product that can import TIFF's or DWG's, you will be happy to know that our entire product line is available on DVD-ROM and on our website. These solutions reflect our commitment to providing you with the tools you need to be even more successful.

IN SPRING 2007

The beautiful renderings found in this Range Hood Catalog will soon be available as TIFFs and KITs (20-20 format) on our website. Located under "Catalogs" and also under "20-20 Technologies", you will find our interactive Range Hood catalog, which allows you to easily download, print, or email these renderings to clients and colleagues. For the 20-20 user, download the KIT files into your 20-20 program, and customize the designs to fit your clients' needs.

NOTE: These renderings use custom cabinetry from "20-20's Design + Catalogs". In order to see the cabinetry in renderings or alter the custom cabinetry, you must have these custom catalogs installed on your 20-20 platform. If not, you may delete the custom cabinets and use a manufacturers stock cabinets from the base 20-20 program, but the design may look significantly different than the original by White River. To purchase a copy of "Design + Catalogs", contact 20-20 Technologies.
