

Pure Brilliance™

For Your Home, Only the Very Best Only Silestone®.

The Silestone Difference

Designing your dream home starts with the selection of the right materials. That's where Silestone natural quartz enters the scene. Silestone is the world's leading quartz surface, combining strength and beauty to create a superior choice for nearly any surface in your home or office.

Product Protection

Silestone is the first and only countertop with built-in Microban® antimicrobial protection. Microban safely fights the growth of microbes such as odor-causing bacteria, mold and mildew 24/7 for the life of the product. Microban protection is built-in during the manufacturing process making it a durable part of the product inside and on the surface. With this protection, you will enjoy countertops that are easier to clean and stay cleaner longer.

Cleaning Silestone

Daily maintenance of Silestone requires only the simple use of soap and water or any regular household cleaner such as Windex®. Stubborn stains may call for the careful use of an abrasive cleanser.

Stain Resistant:

Silestone's polished surface is non-porous and thus highly resistant to stains from coffee, wine, lemon juice, olive oil, vinegar, makeup, and many other common household products. Unlike granite, Silestone will keep its lustrous shine without needing to be sealed.

Scratch Resistant:

Only three other natural minerals - diamond, sapphire and topaz - are harder than quartz, making Silestone naturally scratch-resistant. Quartz is a seven in strength on Mohs Hardness Scale (diamond is a 10). So, while a careless slip of the knife will scratch most other countertops such as laminates and some granites, it won't leave a mark on Silestone.

Heat Resistant:

Unlike solid surfaces and laminates, Silestone is heat- and scorch-resistant. It will withstand limited exposure to heat without burning or scorching. The use of a trivet is always recommended.

Silestone Colors

Silestone is available in 40 dazzling colors, ensuring that there is a Silestone color to suit most any style or taste. Because Silestone natural quartz delivers more color consistency than any other natural stone, you can be confident when using samples to choose your Silestone countertop color. Silestone, by Cosentino... Leading the industry with experience, quality, distribution and manufacturing capacity to bring you Strength & Elegance that last a lifetime.

Silestone is composed of natural materials. These colors are subject to slight variations in color shade and particle structure. Colors represented in this printed brochure may vary slightly from actual product. Color Palette subject to change. Call Counter Intelligence for availability.

10 YEAR WARRANTY

COSENTINO, S.A. SILESTONE® RESIDENTIAL LIMITED WARRANTY FOR NORTH AMERICA

Cosentino, S.A. warrants to the original owners of installed Silestone® products for a period of ten years from the date of installation that the Silestone® material will be free from manufacturing defects. If a manufacturing defect occurs during the warranty period, Cosentino, S.A. will at its option, repair or replace the defective Silestone® products.

TRANSFERABLE WARRANTY

This limited warranty is transferable within the 10-year period of warranty only when the new owner of your residence writes to Cosentino USA to register the limited warranty under the new owner's name. This limited warranty is transferable only to the purchaser of your residence.

Is your Countertop ...

Protected?

Silestone is the first and only countertop with built-in Microban® antimicrobial protection. Microban safely fights the growth of microbes such as odor-causing bacteria, mold and mildew 24/7 for the life of the product. With this protection, you will enjoy countertops that are easier to clean and stay cleaner longer.

and Certified?

NSF International, an independent, not-for-profit organization, helps protect you by certifying products and writing standards for food, water, air and consumer goods. Silestone meets all specific criteria for direct food contact in accordance with FDA requirements.
