

Seeing You Through.

To us, "Seeing You Through" is a philosophy that goes beyond the factory, beyond the warehouse, and right into each home. It's what drives us to manufacture products that are complete, accurate and delivered on time. But most of all, it's why our customers place their trust in us.

## ENERGY EFFICIENT OPTIONS FROM MI

In addition to standard double-paned glass and Intercept™ Warm edge Spacer System, MI Windows and Doors offers a variety of efficiency-increasing options:

- Low-Emissivity (Low-E<sup>2</sup>) glass
  - ▲ Reduces SHGC (Solar Heat Gain Coefficient), less heat transferred through the sun's rays
  - ▲ Filters out damaging ultraviolet rays
  - ▲ Reduces window condensation and related problems
