

TimberTech[®]
Less Work. More Life.

Less Work. More Life.

Create The Ultimate Outdoor Living Area

With TimberTech you can build an outdoor retreat and customize it to meet your needs and reflect your taste. Best of all, when you use low maintenance TimberTech products you'll have lots of time to enjoy it.

TimberTech composite decking and railing is a revolutionary alternative to traditional wood that doesn't rot, warp or splinter - and looks great year after year. It's made through a unique process that turns high-quality reclaimed wood fibers and pure plastic resins into strong, moisture-resistant decking and railing products that last. In fact, it's backed with a 25-year warranty.

- TimberTech products are formulated to inhibit mildew growth and minimize staining
- TimberTech meets or exceeds all Americans with Disabilities Act standards for slip resistant walking surfaces
- Reflective, inorganic pigments are used to develop colors that minimize heat build-up

And, unlike wood decks, TimberTech products require no staining or sealing. So choose TimberTech to build your dream deck... then decide what to do with your spare time!

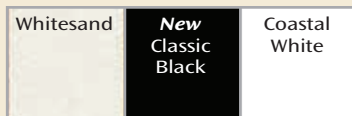

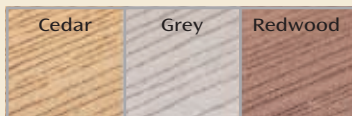

The Possibilities Are Endless

With an array of decking profiles, color options, high-quality surfaces and size choices, TimberTech makes it easy to maximize your outdoor living area.

Color Choices

High quality raw materials and UV-inhibiting pigments are blended to produce decking and railing products consistent in color, shape and size.

Decking Options:

TimberTech Cedar, Grey, Redwood and tropical colors shown below

Railing Options:

TimberTech Cedar, Grey, Redwood, Whitesand, Classic Black and Coastal White

Accessories: vary by product and color

New Tropical Color Collection

TimberTech Earthwood™ Plank is now available in three warm, tropical colors.

Accessories:

TwinFascia® and TwinRiser™ are available in all three colors

Watch for complementary railings in Spring 2007

Floorizon® Plank

Hidden Fastener System

- Most economical hidden fastener system in the market
- 6" plank provides 11% more surface coverage than traditional decking profiles, which means lower material needs and lower labor costs
- Two surface choices: Vertigrain™ or Brushed
 - Vertigrain surface provides a bold, distinct look and does not have the repetitive V-pattern found on other composites
- Self-gapping profile and one screw per joist make the installation process easy - no visible screws
- Spans 24" on-center for reduced structural needs
- Available in Cedar, Grey and Redwood

Vertigrain Surface

Brushed Surface

Actual dimensions 1-1/2" x 6"

With a built-in hidden fastener system and two appealing surfaces to choose from, a Floorizon deck is beautiful and easy to install.

TwinFinish® Plank

One Plank. Two Looks.

- Dense, solid plank is rigid, sag-resistant and easy to install
- Each plank offers two surface choices: VertiGrain on one side and Brushed on the other
 - VertiGrain surface provides a bold, distinct look and does not have the repetitive V-pattern found on other composites
- Spans a maximum 20" on-center for residential applications
- Available in Cedar, Grey and Redwood

Actual dimensions 1" x 5-7/16"

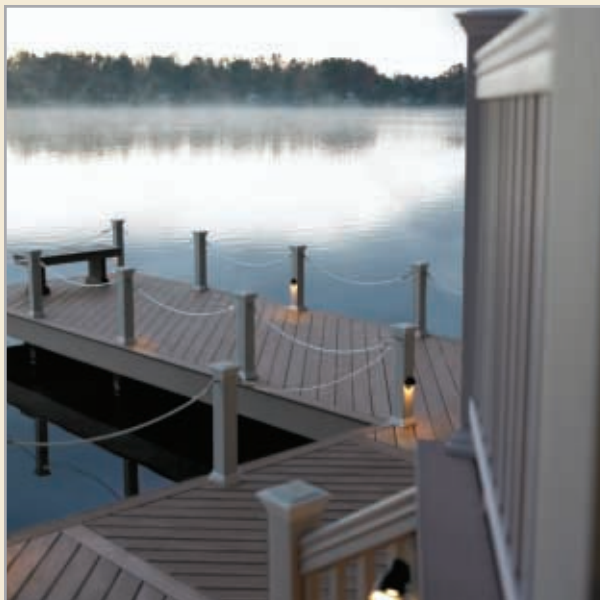

VertiGrain Surface

Brushed Surface

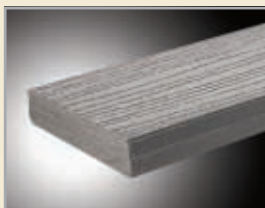

TwinFinish Plank is a high-quality, traditional decking option. Its solid core and similarity to a traditional 5/4 Plank allows for design creativity and customization.

DockSider™ Plank

Revolutionary Alternative to Wood Docks

- Spans 24" on-center for residential and commercial applications
- Low-maintenance surface does not rot or split when exposed to moisture and stands up to heavy traffic
- Splinter-free surface doesn't need painting, staining or sealing
- Square-edge profile provides well-defined lines and accents
- Available in Cedar and Grey

Actual dimensions 1-1/4" x 5-1/2"

DockSider Plank is ideal for dock, marina and boardwalk applications. It resists fading, rotting and warping. The VertiGrain surface provides the look of wood and reduces slippery conditions when wet.

New Warm, Tropical Colors • New Hidden Fastener

Earthwood™ Plank

Authentic Tropical Hardwood Look

Choose from three colors - all available in a grooved or solid plank.

- No visible screws on the grooved plank when installed with CONCEALoc™, TimberTech's new stainless steel hidden fastener
- The solid plank provides a traditional decking option

VertiGrain surface has color and grain variations that emulate natural variations in real tropical hardwood. Time and exposure will enhance the natural color of the deck.

- Spans a maximum of 20" on-center for residential applications
- TwinFascia® and TwinRiser™ are available in all three colors
- Square-edged plank provides well-defined deck line

Easy-to-install CONCEALoc provides a fastener-free surface.

New Tropical Rosewood

Grooved Plank

New Tropical Teak

Grooved Plank

Tropical Walnut

Solid Plank

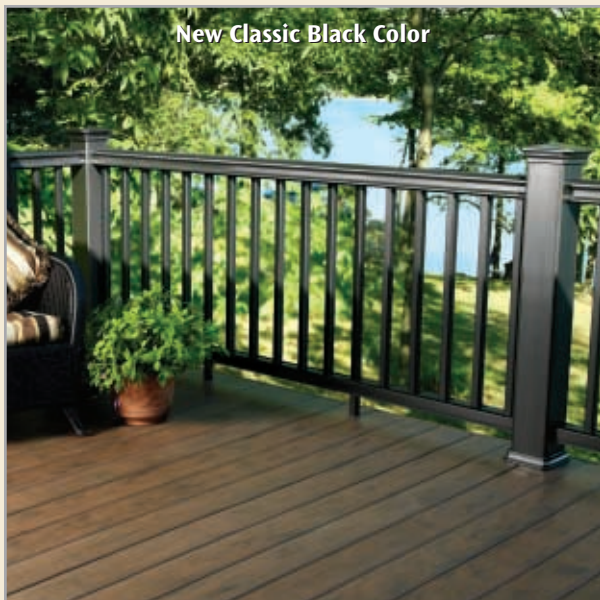

Actual dimensions
1" x 5-7/16"

**RadianceRail™ complements
the Earthwood Plank warm,
tropical color collection.**

RadianceRail and Ornamental Rail can be curved.
For details visit timbertech.com/CurvedRail

New Classic Black Color

RadianceRail™ System

Clean. Crisp. Vibrant.

- No exposed hardware provides a smooth finish
- Sturdy, structural design does not rattle or squeak
- Easy to install

Two Colors Choices and Two Baluster Choices

Coastal White: Square Baluster or Colonial Spindle

- Available in kits or bulk

New Classic Black: Square Balusters

- Available in kits

Coming in Spring 2007: colors to complement the Earthwood Plank tropical color collection.

Accessories

- 42" and 12' Post Cover, Post Cap, Post Skirt

Post Cap

Post Skirt

The architectural styling, detailed accessories and ease of installation, put this rail system in a class of its own!

Ornamental Rail System

The Look and Feel of Real Wood

- Made from high-quality raw materials for incredible aesthetics and less maintenance
- Available in kits with fasteners and pre-drilled rails
- Available in Cedar, Grey, Redwood and Whitesand

Baluster Choices

- Ornamental Spindle - 6' and 8' kits
- Square Baluster - 6' and 8' kits and 12' lengths

Ornamental Spindle

Post Covers

- 4x4 covers - 4' and 12' lengths

4x4 Post Skirt

4x4 Post Caps

Flat Top Post Cap

Brushed Stainless Steel Pyramid Top Post Cap

Copper Pyramid Top Post Cap

Ornamental Rail offers a variety of style choices so that you can add your own flair to any outdoor living space.

Additional Decking Planks

5/4 Plank

- Spans a maximum of 20" on-center for residential applications
- Brushed surface provides the look of wood without the maintenance
- Available in Grey

Actual dimensions
1" x 5-7/16"

2x6 Plank

- Brushed surface provides the look of wood without the maintenance
- Spans 24" on-center for reduced structural needs
- Available in Cedar, Grey and Redwood
- Available in select markets

Actual dimensions
1-1/2" x 5-1/2"

TimberTech 5/4 Plank and 2x6 Plank offer the quality of TimberTech products at a great value.

Accessories

TwinFascia®

- Designed to trim your TimberTech deck and give it that finishing touch
- Available in Cedar, Grey, Redwood, Tropical Rosewood, Tropical Teak, Tropical Walnut and Whitesand

Actual dimensions 9/16" x 10" or 12"

New TwinRiser™

- Designed to use as a riser for stairs
- Available in Cedar, Grey, Redwood, Tropical Rosewood, Tropical Teak and Tropical Walnut
- Can also be used as a fascia board for a 2x8 rim joist

Actual dimensions 9/16" x 7-1/4"

Starter Strip

Provides a starting point for Floorizon deck planks.

- 12' lengths
- Available in Cedar, Grey and Redwood

End Cap

Designed to cap off the ends of TimberTech deck planks; can also be used as baton strips or furring strips for dock pilings.

- 12' lengths • 3/8" thick by 1-1/2" wide
- Available in Cedar, Grey and Redwood

Inside Corner Moulding

Trim profile for at house and for TimberTech deck inside corners.

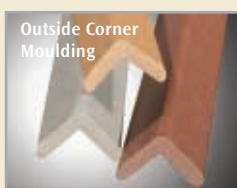

- 12' lengths
- Available in Cedar, Grey and Redwood

Outside Corner Moulding

For any vertical or horizontal outside corner trim moulding.

- 12' lengths • 5/16" thick by 1-1/2" x 1-1/2"
- Available in Cedar, Grey and Redwood

BuilderBoard™

Contractor building block; can be used for railing systems, benches, storage boxes, planters and gates.

- 16' lengths
- 1-7/16" thick by 3-7/16" wide
- Available in Cedar, Grey and Redwood

TimberTech DrySpace™

The Deck Drainage Solution

- Provides extra leisure and storage space for the complete backyard experience
- Off-white color lightens and brightens the area under a deck giving that space a crisp, finished look
- Made from solid extruded vinyl for maximum strength, durability and weather resistance
- Kits come in 12" and 16" on-center systems and in 12' and 16' lengths for common deck sizes
- DrySpace is also available in bulk

DrySpace is a revolutionary deck drainage system that collects the water that falls between the gaps in the planks and channels it away, leaving a dry and functional space below. Perfect for second story decks, DrySpace easily secures to the joists of any new or existing deck with 12" and 16" on-center joist spacing.
