Curb Appeal.

ODL decorative doorglass adds distinctive style and value to the home right where it matters most – the front door.

MAKE EVERY HOUSE A HOME.

ODL doorglass provides the aesthetics of handcrafted glass built in to provide a more inviting and secure entryway.

BUILD IT IN.

When consumers were shown homes with clear vs. decorative doorglass, the decorative glass increased the homes perceived value by an average of 4%.

– ODL Proprietary Research

MAKE AN ORDINARY DECISION
AN EXTRAORDINARY CHOICE.

It's the Doorglass that Makes the Difference.

Glass has long been embraced for its usefulness, its beauty, and its transformative qualities. It fascinates the eye with pattern and texture. It reveals and obscures. It comes to life with the daily rhythms of natural light.

Pattern & Texture.

Privacy & Light.

A reflection of your style.

From Classic...

to Contemporary...

or side & back of home.

ADDING VALUE THROUGHOUT THE HOME.

At ODL, we put the beauty and mystique of handcrafted glass at your door. Our enduring designs serve as a focal point for your home, a reflection of your style and sensibilities, and a bridge between you and the world outside your door.

With designs from Classic to Contemporary, Old World to Modern – and coordinating sidelights, transoms, and bathroom windows, too – we can help you add timeless beauty and enduring value to your home and to your life.

Classic

Styles evolve and change, but these classic designs have enduring appeal. With roots that run deep in the tradition of American architecture, these designs evoke elegance, stability, and the permanence of home. Beautiful lines, sophisticated detailing, and deeply cut bevels create a broad appeal that blends well in a wide range of homes.

GLASS

ODL Doorglass combines the beauty of leaded glass with durability and energy efficiency. Glass panels are tempered for added strength and sealed to save energy and resist air and water filtration.

ODL Doorglass can be used in doors to meet Energy Star® criteria.

More about glass options on page 18.

Old World

Graceful contours and deep bevels lend a feel of antiquity to these doors and create an inviting entryway to your home. These designs capture the feel of the old world, recalling the graciousness and rustic comfort of days past. When guests come to call, let one of our old world designs welcome them with a timeless ambiance.

CAMING

Caming – the metal banding that joins panels of glass – can be a small detail with a big impact on the overall look of your entry. Choose from various options of coming or wrought iron, to coordinate with your door hardware, outdoor fixtures, interior furnishings, or your own personal style.

See all of our coming options on page 18.

Craftsman

Simple designs inspired by nature are the hallmarks of the Craftsman style. These beautiful geometric designs cast intricate patterns of sunlight into the interior spaces of your home. Handcrafted glass honors the Craftsman reverence for fine materials.

Contemporary

Contemporary glass shares your flair for the sculptural. Beautiful lines, sweeping curves, and soft forms inspired by nature, gently bridge the threshold between the natural world and your interior spaces.

NATURAL LIGHT

Decorative glass casts intricate patterns of sunlight, like paint on a canvas, upon the interior and exterior spaces of your home, while contrasting textures create depth and let you bring in light without sacrificing privacy.

Modern

The clean, streamlined look of modernism inspires these bold designs. If you lean toward spare, polished, and sleek, then you're a modern soul and we have an entry that speaks to your sense of style.

An eclectic type? These designs are a sure fit for an individualist.

Just like it? That's all that matters.

At ODL, we design doorglass that's as individual as you are.

CONFIGURATIONS

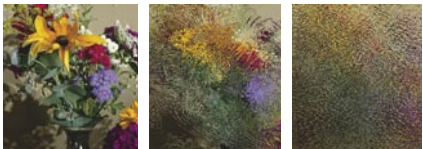

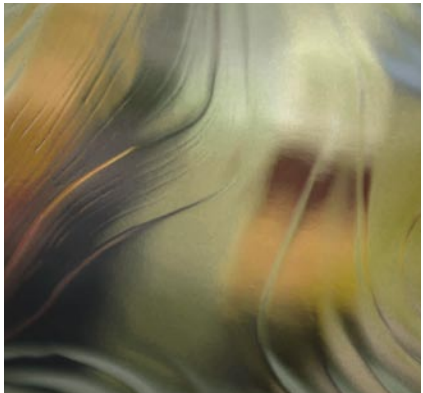

It starts with a door and becomes an entry statement. Add a sidelight or two, a transom, or even a double door. There are dozens of ways to configure your entryway. The more glass you add, the more light you bring in... and the more impressive your entryway, both inside and outside the house.

Decorative Bath Windows

You don't have to leave the beauty of architectural glass at your doorstep. Our decorative bath windows let you create private spaces of beauty in other places. An added layer of obscurity brings in natural light but blocks the view in – making these windows ideal for baths, bedrooms, or other areas where you seek natural light, but want privacy.

TEXTURE & PRIVACY

Textured glass adds dimension, depth, and contrast to our designs. We combine textures – from clear, to softly sandblasted, to glue chip, or hammered – providing just the right balance of light and privacy at your door. We give each design a privacy rating from 1 to 10 to help you choose the level of openness or obscurity you prefer.

Clear = 1

Opaque = 10

Raise & Lower Shade | Top Down, Bottom Up

Raise, Lower, & Tilt Internal Blinds

Internal Muntins | Easy to Clean!

Severe Weather® Low-E Patio Doors!

Doorglass Blinds & Shades. Great for Patio, Side, and Back Doors!

Doorglass blinds and shades allow you to control light and privacy with the touch of a finger. These treatments are sealed between tempered glass, so they require no dusting, have no exposed cords, and do not swing with the door.

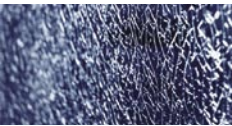

Add Value Around the Home.

We offer standard doorglass in a variety of shapes and styles: clear, low-E, or rain-textured glass; classic or prairie style grids; internal or external muntins; vented doorglass to bring in the breeze; or Severe Weather® doorglass to withstand the heavy blows.

Glass Details

ODL Doorglass can be used in doors to meet Energy Star criteria. See www.odl.com for specific performance value.

ALL ODL DOORGLASS FEATURES SAFETY GLASS

Safety glass is up to four times as strong (impact resistant) as annealed glass. If broken, it shatters into many small fragments, which prevent major injuries. Tempered safety glass is produced from annealed glass using a heat treating process.

thermally sealed to save energy

decorative doorglass

clear tempered safety glass

SECURE BY DESIGN®

180% more break resistant than tempered glass. Virtually impossible to break through. Energy efficient triple-glazed construction. Available on *Impressions* doorglass.

LOW-E

Low-E is a high performance glass made with an invisible thin metallic coating that blocks heat flow. A proven energy saver, Low-E glass reduces air conditioning costs by reducing solar transmissions in the summer. In winter, it reduces heat loss to the outside and allows solar energy to pass inside. Available as clear doorglass, Severe Weather and Internal Muntins.

SEVERE WEATHER® IMPACT DOORGLASS

Meets DP±65 wind and missile impact code requirements. An attractive solution for installations in windborne debris regions. Available in select designs.

HANDCRAFTED GLASS

The beauty of handcrafted glass is that every piece is different – slight bubbles, lines and surface imperfections are all characteristics of glass. They distinguish the light transmitted into your home, and are not to be considered as defects.

No screws or plugs. Easy to paint or stain. No squeeze out.	Ready to stain or paint. Will not yellow.	Ready to stain or paint. Will not yellow.	No need to paint. (Available in white.) Storm door safe. Will not yellow.	

Quality You Can Trust!

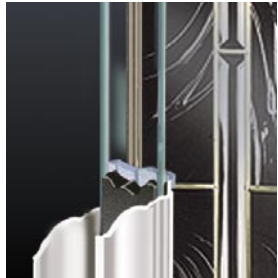

ODL products undergo extensive testing and quality checks and are covered by separate limited warranties. This is to assure protection against water and air infiltration in accordance with ASTM standards. This maintains the integrity of the entry door and its thermal performance.

ODL Doorglass must survive our test of 50,000 slam cycles.

Blinds and shades are tested for 10,000 cycles.

Tempered safety glass meets requirements of ANSI Z97.1.

WARRANTY

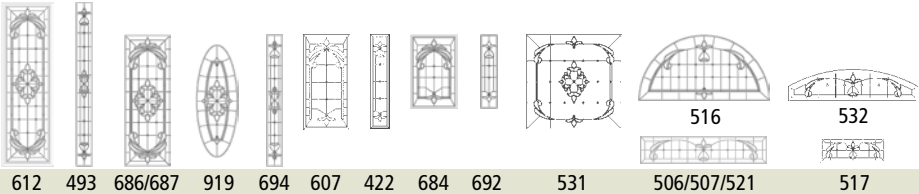

ODL products are covered by separate limited warranties. The warranty does not apply to damage from shipping, handling, installation, storage, environmental conditions, or unusual service conditions or usage. For warranty information contact: ODL Customer Service, 215 East Roosevelt Avenue, Zeeland, Michigan 49464, www.odl.com.
