

Exceptional design features make this Victorian space cozy and inviting. Urns and swags accentuate the window casing, while ornate acanthus mouldings gracefully enhance the simple beam ceiling and fireplace mantel. The tall tambour wainscoting, typical of Victorian design, is capped with a grapevine-frieze chair rail; the same frieze also frames the arched panel door.

The fireplace mantel, decorated with scrolls and plume corners, is the focal point of this charming Victorian room, which features bold – yet feminine – ornamentation. Fluted Corinthian pilasters flank the mantel, and a custom mirror above the mantel features additional floral motifs plus a delicate scroll frieze. A cornice at the top of the windows complements the beaded moulding and rosettes at the bottom.

Small decorative elements such as lamb's tongue and egg and dart patterns accentuate this interior. The large acanthus leaf frieze and petite acanthus cornice draw attention to the fireplace mantel, while the smooth surrounding elements complement each other well. Authentic Hand-Carved® rosettes accent the recessed cabinetry along the wall, and large scrolled corners enhance the ceiling design.

Flower baskets, scrolls, and delicate corners dress the panels and recessed shelving of this French Formal design. The panels on the walls and the vaulted ceiling are directly applied and require no additional material. These panels include just two elements – a decorative clipped corner and a small panel mould.

This spacious room features a high vaulted ceiling adorned with beams. The beams combine an acanthus crown, a grapevine frieze, and a rope moulding and are complemented with beautiful architectural corbels. A chair rail tops off the high paneled wainscoting and fits perfectly with the tall ceiling. The English motif is carried through to the mantel, which contains the same elements as the beams.

Large, Authentic Hand-Carved® Corinthian capitals and plinth blocks dress the wall of this Federal-style elevation. Smaller Corinthian capitals are placed around the fireplace mantel, along with Greek urns and floral swags. A custom panel is created just above the fireplace with a broken pediment made up of an acanthus leaf cornice and egg and dart detail. A large crown build-up finishes the room with the Vitruvian Wave frieze, modillion blocks and a dentil mould.

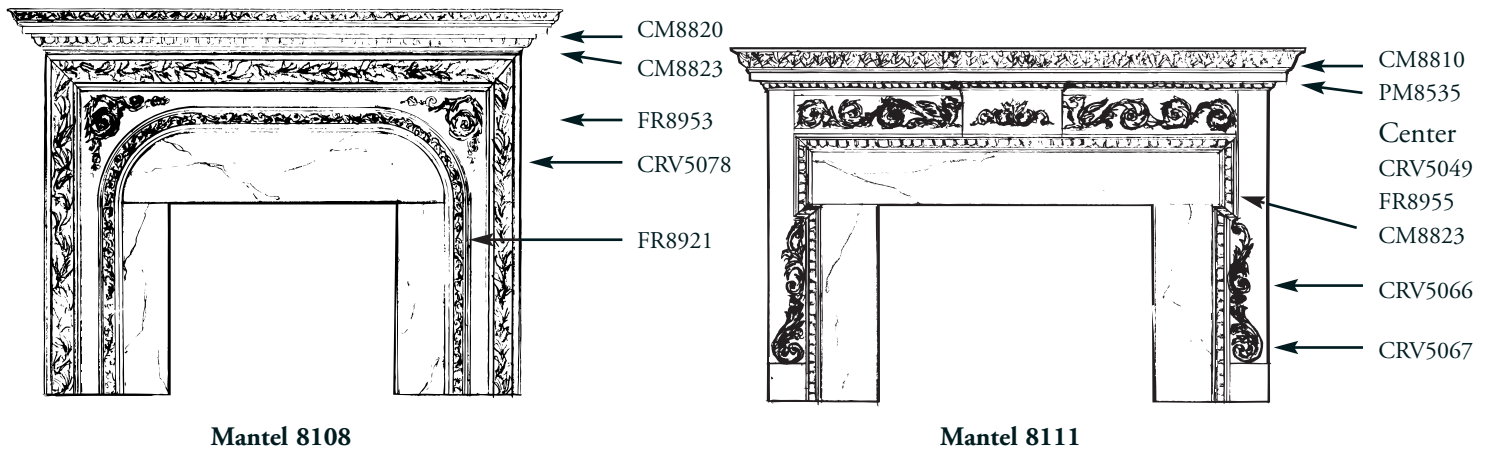

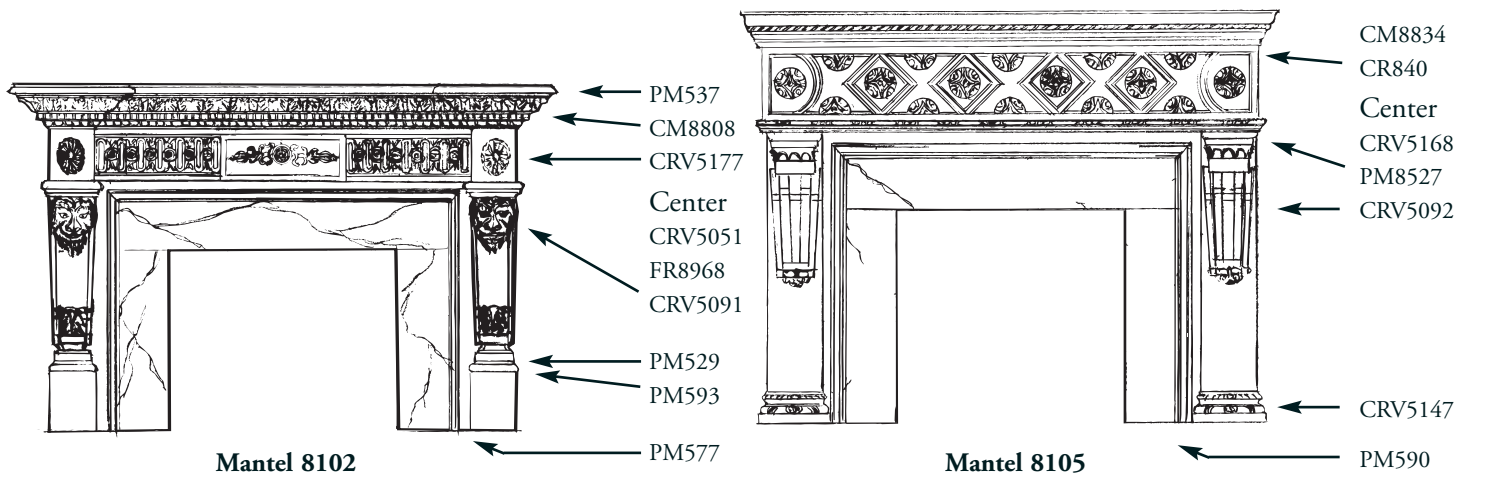

The focal point of this handsome room is the beautifully detailed fireplace mantel, accompanied with rich wall paneling and embellished window and door combinations. The ceiling design includes a single panel mould with a fluted medallion in the center. The fireplace mantel and door surround are consistent in design, with both featuring clipped corner panels plus an acanthus leaf frieze and a laurel swag center.

Reflecting colonial style, this appealing space combines wall paneling and an arched doorway accented with a stately coffered ceiling. The wall panels include a smooth panel mould, while the chair rail and casing are decorated with a running leaf and bead pattern. A simple swag with urns adorns the mantel and is applied below the acanthus leaf cornice moulding.
